# DIVISION ACTIVITY

## CALLS FOR SERVICE

### District 1

Includes all areas within the city limits that are south and east of Interstate 270 and west of the Scioto River. Also includes I270 northbound from US 33 westbound ramp up to Sawmill Road.

### District 2

Includes all areas within the city limits that are east of the Scioto River, west of Sawmill Road, south of the Delaware County Line and north of Martin Road. Also includes I270 westbound from Sawmill Road to US 33 and the ramp from I270 southbound to US 33 westbound.

### District 3

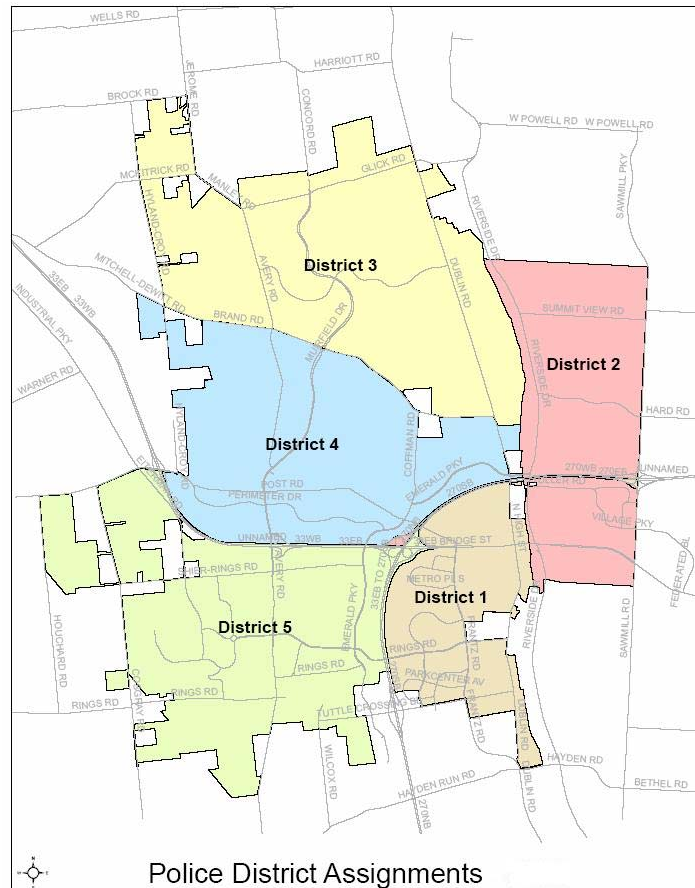

Includes all areas within the city limits that are north of Brand Road and west of the Scioto River. All addresses that are within the city limits on Brand Road including the intersections of Brand Road/Muirfield Drive and Brand Road/Dublin Road are covered by this district.

### District 4

This district includes all areas within the city limits that are south of Brand Road, north of US 33 and west of Interstate I270, Browning Court and Dublin Road. Addresses that are south of Brand Road to the I270 overpass that are within the city limits are part of District 4.

### District 5

This area includes all areas within the city limits that are south of the north edge of US 33 and west of I270. This area also covers both northbound and southbound lanes of I270 between Tuttle Crossing and US 33 and all ramps to and from I270 south of US 33.

**NOTE:** The following is a breakdown of calls for service. They represent initial reports. The number of actual offenses may be different after officer's investigation.

# WORKLOAD ANALYSIS REPORT

## July - September 2009

The July through September 2009 Workload Analysis Report reflects a total of 6,850 calls for service. This figure does not include traffic stops, foot patrols or courtesy cards initiated by officers or activity occurring in District 0 (calls outside city limits/mutual aid). The average response time for calls was five (5) minutes from the time the call was received by our communications technician until the first responding officer arrived on the scene. The average time to reach a disposition and clear the call was twenty-three (23) minutes.

The Workload Analysis Report also allows us to track activity levels by hour by day. We analyze this data to determine our staffing levels for patrol shifts. By reviewing our Workload Analysis Report, you can see that our busiest hour of activity was between 8:00 AM and 9:00 AM. Five hundred sixty-five (565) calls for service were received during this time frame. The next busiest hour was between 9:00AM and 10:00AM when 538 calls for service were received. The ability to obtain this type of data is critical to effectively staff our patrol shifts.

While reviewing this report it is important to note that various factors can influence average response times. "Stacking" of calls where lower priority calls are held so that calls of a more urgent nature can be dispatched and responded to commonly occurs. "Cross dispatching" where an officer is dispatched out of district to a call will also increase response time. Low priority calls that are received during roll call/shift change negate an immediate response from patrol officers thus increasing response times.

As a matter of practice, we like to keep our average response time for all calls occurring inside the City under ten (10) minutes. As previously stated, there are certain incidents where that becomes impossible. However, our goal is realistic and as demonstrated by the July through September 2009 report was met. In an effort to assist the reader in reviewing the Workload Analysis Report the following is a list of some relevant interpretations for review.

### District 1 Totals

1,045 Calls for Service

# WORKLOAD ANALYSIS REPORT

## January - September 2009

The January through September 2009 Workload Analysis reflects a total of 18,280 calls for service. This figure does not include traffic stops, foot patrols or courtesy cards initiated by officers or activity occurring in District 0 (calls outside city limits/mutual aid). The average response time for calls was five (5) minutes from the time the call was received by our communications technician until the first responding officer arrived on the scene. The average time to reach a disposition and clear the call was twenty-three (23) minutes.

The Workload Analysis also allows us to track activity levels by hour by day. We analyze this data to determine our staffing levels for patrol shifts. By reviewing our Workload Analysis Graph on the following page, you can see that our busiest hour of activity was between 9:00AM and 10:00AM. One thousand five hundred sixty-six (1,566) calls for service were received during this time frame. The next busiest hour was between 4:00PM and 5:00PM when 1,311 calls for service were received. The ability to obtain this type of data is critical to effectively staff our patrol shifts.

While reviewing this report it is important to note that various factors can influence average response times. "Stacking" of calls where lower priority calls are held so that calls of a more urgent nature can be dispatched and responded to commonly occur. "Cross dispatching" where an officer is dispatched out of district to a call will also increase response time. Low priority calls that are received during roll call/shift change negate an immediate response from patrol officers thus increasing response times.

As a matter of practice, we like to keep our average response time for all calls occurring inside the City under ten (10) minutes. As previously stated, there are certain incidents where that becomes impossible. However, our goal is realistic and as demonstrated by the January through September 2009 report, was met. The following is a break down of calls for service by district with the overall total calls, average response time and average time to resolve the call:

### District 1 Totals

3,005 Calls for Service  
 5 minute average response time  
 25 minute average time to resolve call

### District 4 Totals

4,369 Calls for Service  
 5 minute average response time  
 26 minute average time to resolve call

### District 2 Totals

3,233 Calls for Service  
 5 minute average response time  
 26 minute average time to resolve call

### District 5 Totals

3,354 Calls for Service  
 5 minute average response time  
 23 minute average time to resolve call

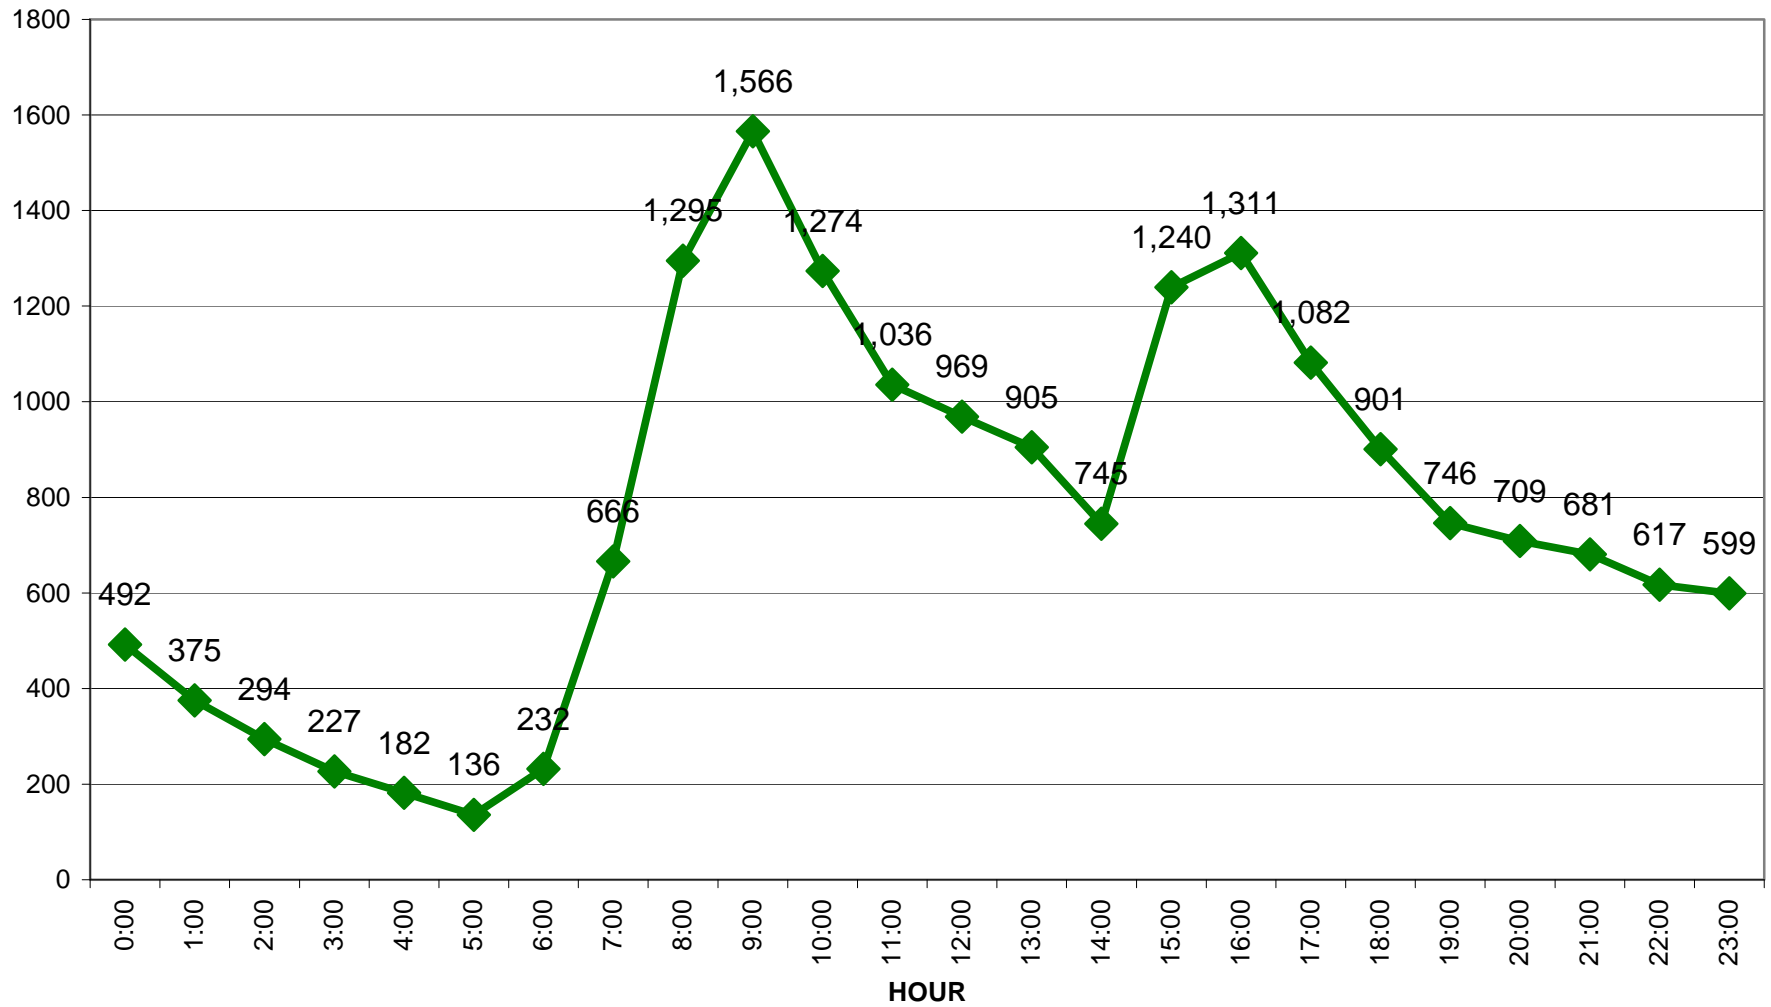

### District 3 Totals

4,319 Calls for Service  
 6 minute average response time  
 16 minute average time to resolve call

### Total Calls for Service

18,280 Calls for Service  
 5 minute average response time  
 23 minute average time to resolve call
