DIVISION ACTIVITY

CALLS FOR SERVICE

District 1

Includes all areas within the city limits that are south and east of Interstate 270 and west of the Scioto River. Also includes I270 northbound from US 33 westbound ramp up to Sawmill Road.

District 2

Includes all areas within the city limits that are east of the Scioto River, west of Sawmill Road, south of the Delaware County Line and north of Martin Road. Also includes I270 westbound from Sawmill Road to US 33 and the ramp from I270 southbound to US 33 westbound.

District 3

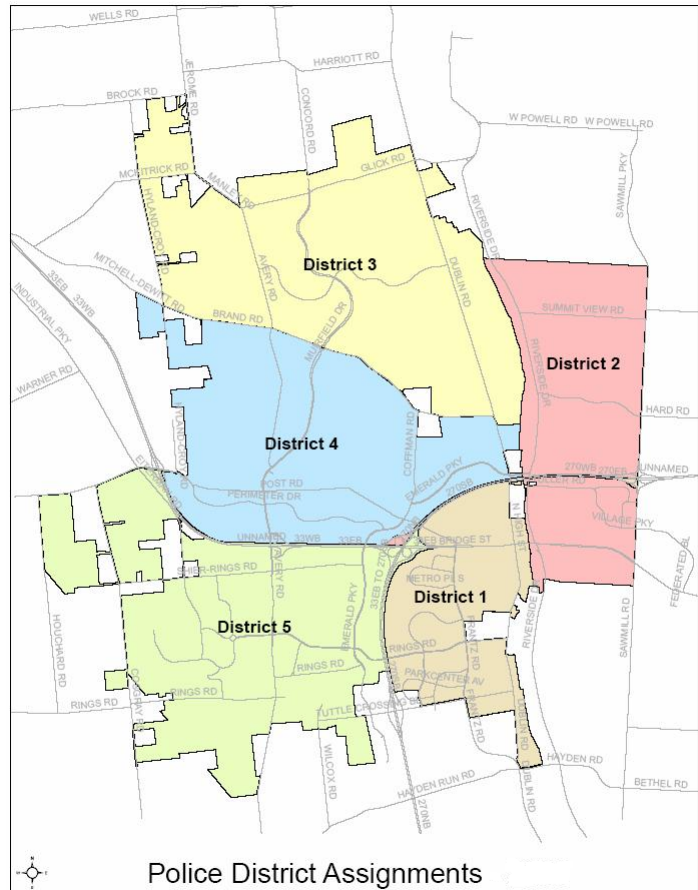

Includes all areas within the city limits that are north of Brand Road and west of the Scioto River. All addresses that are within the city limits on Brand Road including the intersections of Brand Road/Muirfield Drive and Brand Road/Dublin Road are covered by this district.

District 4

This district includes all areas within the city limits that are south of Brand Road, north of US 33 and west of Interstate I270, Browning Court and Dublin Road. Addresses that are south of Brand Road to the I270 overpass that are within the city limits are part of District 4.

District 5

This area includes all areas within the city limits that are south of the north edge of US 33 and west of I270. This area also covers both northbound and southbound lanes of I270 between Tuttle Crossing and US 33 and all ramps to and from I270 south of US 33.

NOTE: The following is a breakdown of calls for service. They represent initial reports. The number of actual offenses may be different after officer's investigation.

WORKLOAD ANALYSIS REPORT

July – September 2011

The July through September 2011 Workload Analysis Report reflects a total of 6,583 calls for service. This figure does not include traffic stops, foot patrols or courtesy cards initiated by officers or activity occurring in District 0 (calls outside city limits/mutual aid). The average response time for calls was five (5) minutes from the time the call was received by our communications technician until the first responding officer arrived on the scene. The average time to reach a disposition and clear the call was twenty (21) minutes.

The Workload Analysis Report also allows us to track activity levels by hour by day. We analyze this data to determine our staffing levels for patrol shifts. By reviewing our Workload Analysis Report, you can see that our busiest hour of activity was between 9:00 AM and 10:00 AM. Six hundred eighty-five (685) calls for service were received during this time frame. The next busiest hour was between 10:00 AM and 11:00 AM when 523 calls for service were received. The ability to obtain this type of data is critical to effectively staff our patrol shifts.

While reviewing this report it is important to note that various factors can influence average response times. "Stacking" of calls where lower priority calls are held so that calls of a more urgent nature can be dispatched and responded to commonly occur. "Cross dispatching" where an officer is dispatched out of district to a call will also increase response time. Low priority calls that are received during roll call/shift change negate an immediate response from patrol officers thus increasing response times.

As a matter of practice, we like to keep our average response time for all calls occurring inside the City under ten (10) minutes. As previously stated, there are certain incidents where that becomes impossible. However, our goal is realistic and as demonstrated by the July through September 2011 report was met. In an effort to assist the reader in reviewing the Workload Analysis Report the following is a list of some relevant interpretations for review.

District 1 Totals

1,198	Calls for Service
4	minute average response time
23	minute average time to resolve call

District 4 Totals

1,713	Calls for Service
5	minute average response time
22	minute average time to resolve call

District 2 Totals

1,147	Calls for Service
5	minute average response time
27	minute average time to resolve call

District 5 Totals

1,111	Calls for Service
5	minute average response time
21	minute average time to resolve call

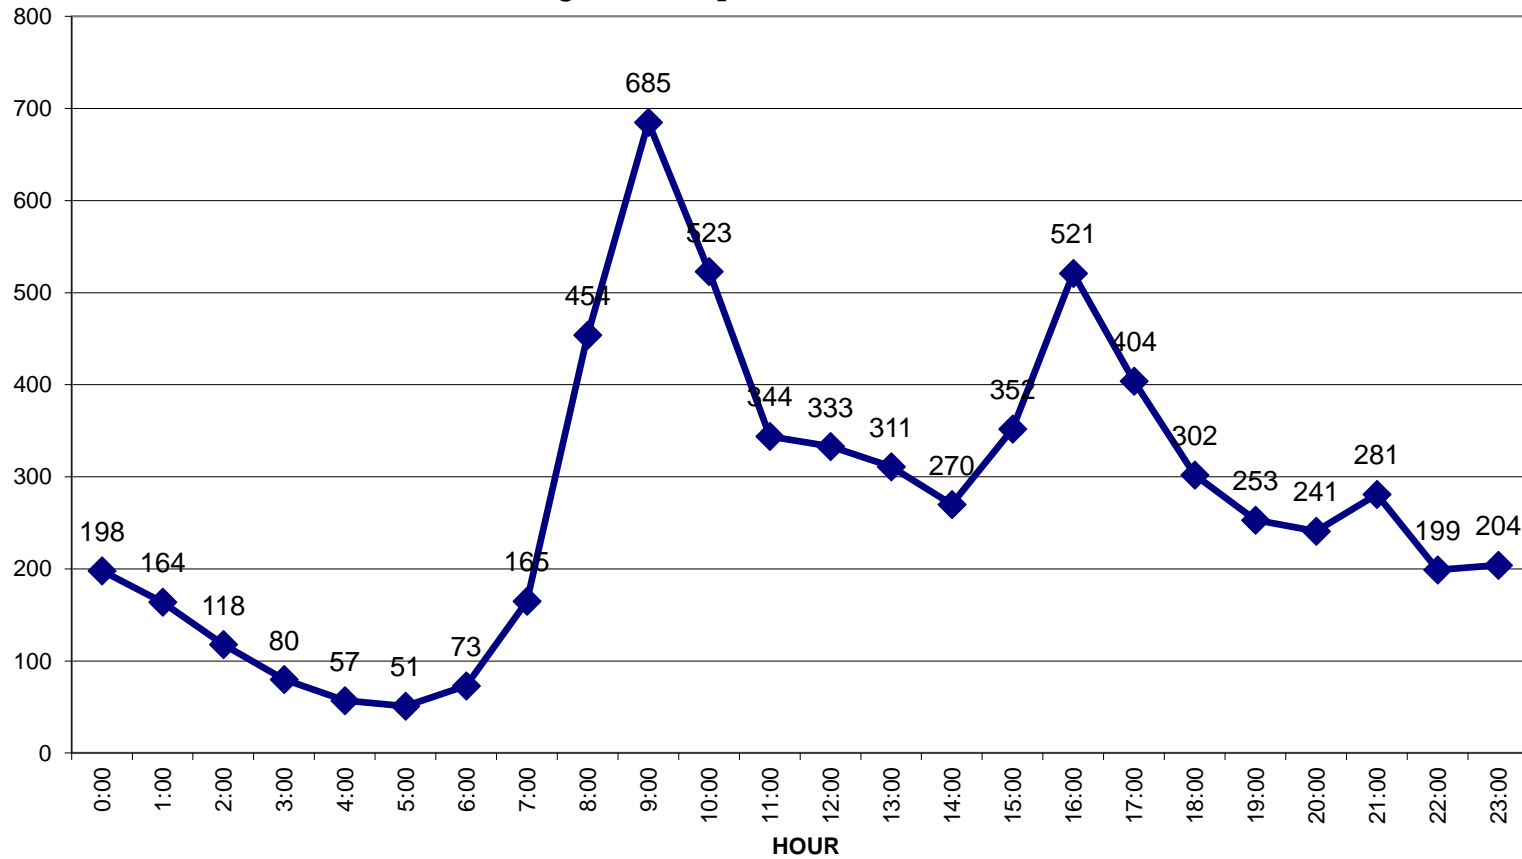

District 3 Totals

1,414	Calls for Service
5	minute average response time
15	minute average time to resolve call

Total Calls for Service

6,583	Calls for Service
5	minute average response time
21	minute average time to resolve call

Calls for Service by Time of Day July - September 2011

WORKLOAD ANALYSIS REPORT

January - September 2011

The January through September 2011 Workload Analysis reflects a total of 19,127 calls for service. This figure does not include traffic stops, foot patrols or courtesy cards initiated by officers or activity occurring in District 0 (calls outside city limits/mutual aid). The average response time for calls was five (5) minutes from the time the call was received by our communications technician until the first responding officer arrived on the scene. The average time to reach a disposition and clear the call was twenty-one (21) minutes.

The Workload Analysis also allows us to track activity levels by hour by day. We analyze this data to determine our staffing levels for patrol shifts. By reviewing our Workload Analysis Graph on the following page, you can see that our busiest hour of activity was between 9:00 AM and 10:00 AM. Two thousand one hundred thirty-eight (2,138) calls for service were received during this time frame. The next busiest hour was between 10:00 AM and 11:00 AM when 1,744 calls for service were received. The ability to obtain this type of data is critical to effectively staff our patrol shifts.

While reviewing this report it is important to note that various factors can influence average response times. "Stacking" of calls where lower priority calls are held so that calls of a more urgent nature can be dispatched and responded to commonly occur. "Cross dispatching" where an officer is dispatched out of district to a call will also increase response time. Low priority calls that are received during roll call/shift change negate an immediate response from patrol officers thus increasing response times.

As a matter of practice, we like to keep our average response time for all calls occurring inside the City under ten (10) minutes. As previously stated, there are certain incidents where that becomes impossible. However, our goal is realistic and as demonstrated by the January through September 2011 report, was met. The following is a break down of calls for service by district with the overall total calls, average response time and average time to resolve the call:

District 1 Totals

3,486 Calls for Service
5 minute average response time
22 minute average time to resolve call

District 4 Totals

4,629 Calls for Service
5 minute average response time
23 minute average time to resolve call

District 2 Totals

3,281 Calls for Service
5 minute average response time
24 minute average time to resolve call

District 5 Totals

3,488 Calls for Service
5 minute average response time
21 minute average time to resolve call

District 3 Totals

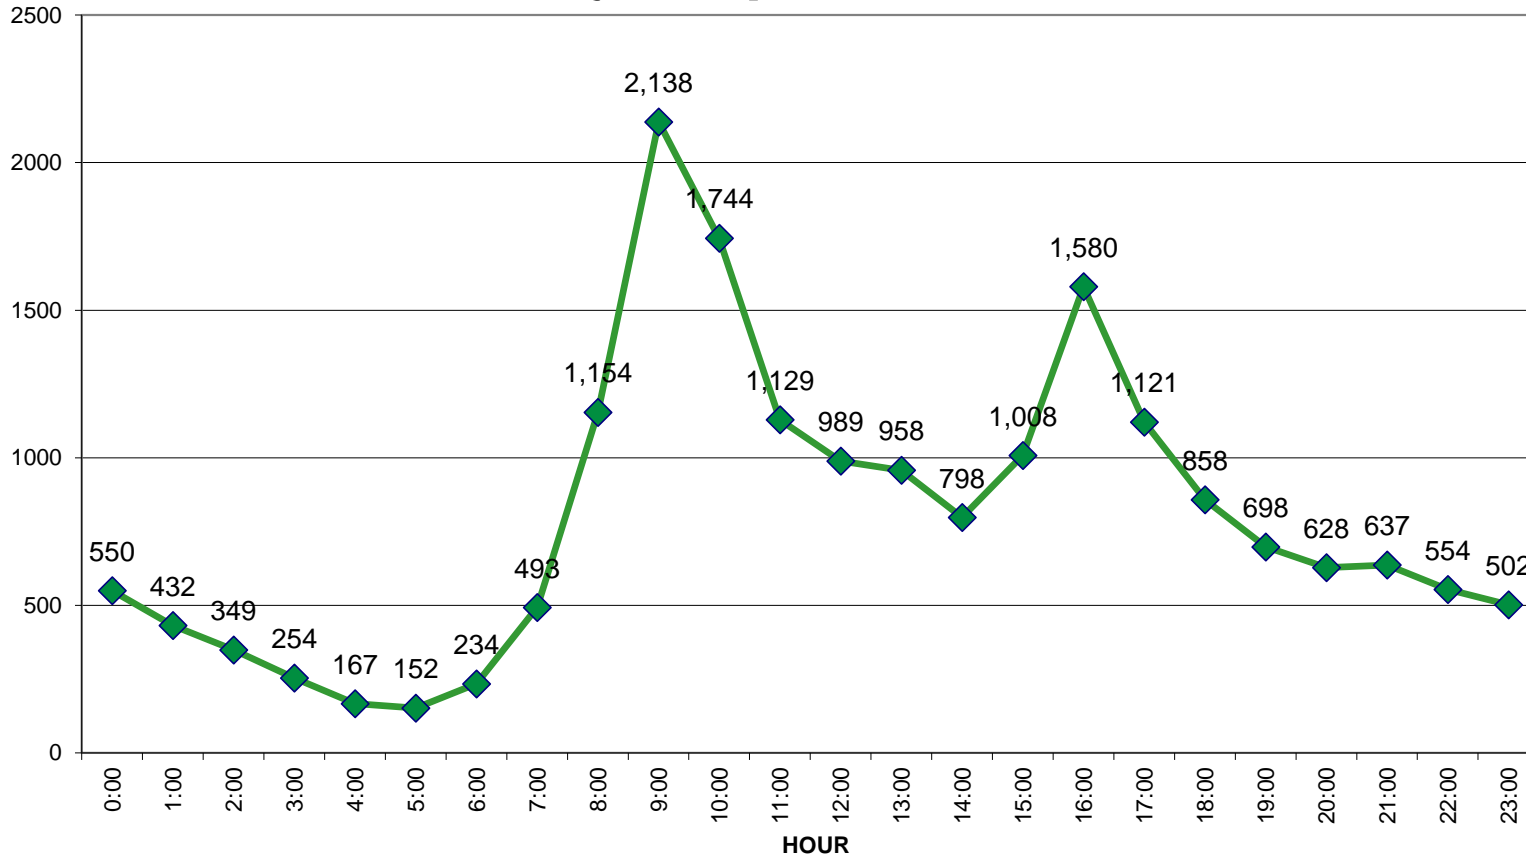

4,243 Calls for Service
5 minute average response time
14 minute average time to resolve call

Total Calls for Service

19,127 Calls for Service
5 minute average response time
21 minute average time to resolve call

Calls for Service by Time of Day

ACCIDENT ANALYSIS July - September 2011

July 1, 2011 through September 30, 2011 there were 222 reported traffic accidents, resulting in an average 2.41 accidents/day. Compared to 2010, accidents decreased 20.14% (2011 = 222; 2010 = 278).

Personal injury accidents (60) accounted for 27.03% of the total. Property damage accidents accounted for the majority of our activity with 147 reports being filed (66.22%). Private property collisions accounted for 15 (6.76%) reports being filed.

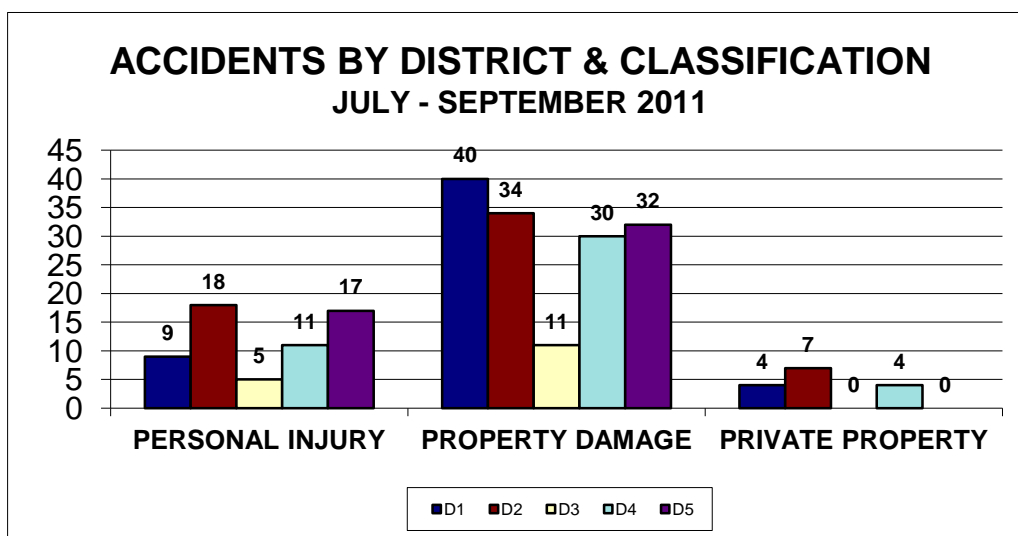

District 2 experienced the majority of accidents (59 or 26.58%) followed by District 1 with 53 accidents (23.87%). There were 16 collisions in District 3 (7.21%), 45 collisions in District 4 (20.27%) and in District 5, 49 accidents (22.07%). The busiest day of the week for accident activity for the reporting period was Thursday with 42 accidents (18.92%) reported. The second busiest day was Wednesday with 40 accidents (18.02%) reported. Accident activity for the remaining days of the week were as follows: Sunday = 12 (5.41%); Monday = 37 (16.67%); Tuesday = 34 (15.32%); Friday = 37 (16.67%); and Saturday = 20 (9.01%).

The most frequent contributing factor was Following Too Closely, which accounted for 70 or 31.53% of the accidents. The next most recurrent contributing factor was Failure To Yield accounting for 34 or 15.32% of the accidents for the reporting period. The busiest time of day for accident activity was between 5PM-6PM with 32 (14.41%) accidents.

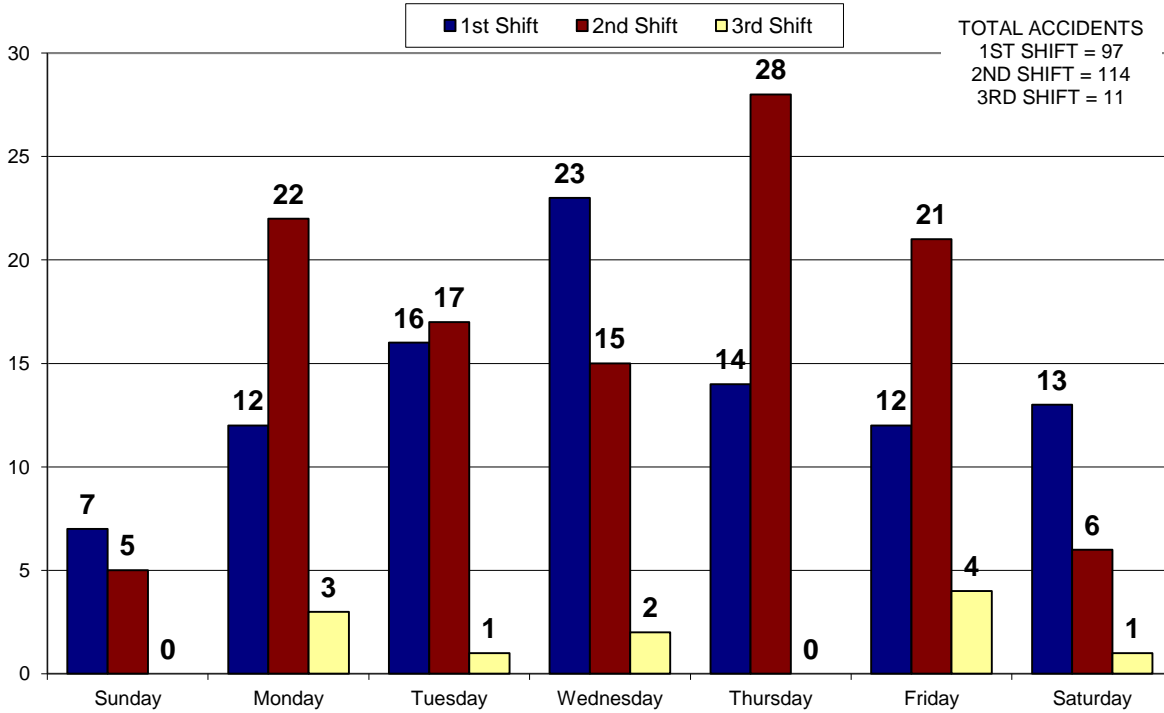

One (1) crash was identified as having been alcohol related (.45%). The drivers in these accidents were arrested and charged with OVI. One hundred seventy-nine (179) citations were issued to at fault drivers as a result of their accidents (80.63%).

ACCIDENTS BY DAY OF WEEK & SHIFT JULY 1 - SEPTEMBER 30, 2011

ACCIDENTS & CITATIONS BY HOUR JULY 1 - SEPTEMBER 30, 2011

ACCIDENT ANALYSIS January - September 2011

January 1, 2011 through September 30, 2011 there were 665 reported traffic accidents, resulting in an average 2.44 accidents/day. Compared to 2010, accidents decreased 19.55% (2011 = 665; 2010 = 795).

Personal injury accidents (159) accounted for 23.91% of the total. Property damage accidents accounted for the majority of our activity with 416 reports being filed (62.56%). Private property collisions accounted for 90 (13.53%) reports being filed.

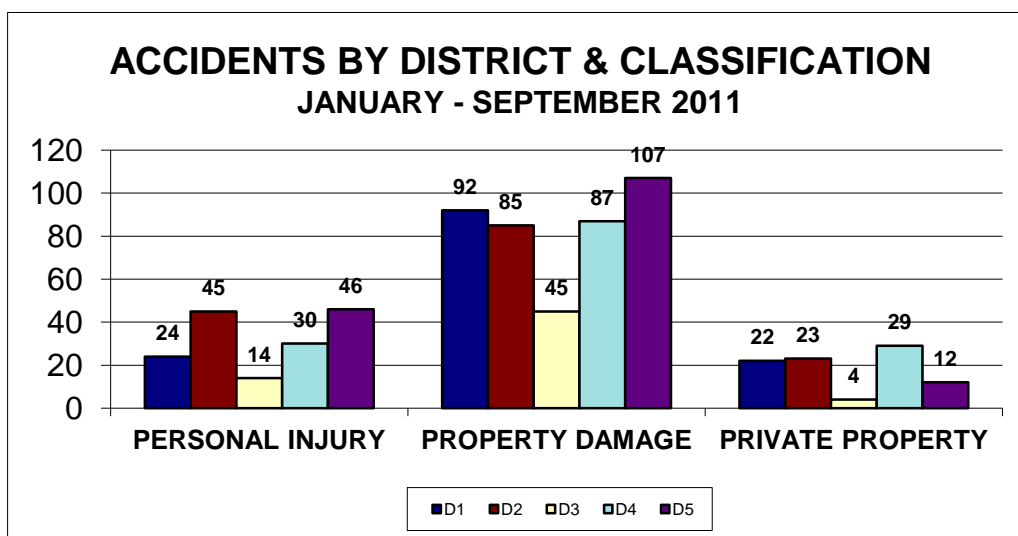

District 5 experienced the majority of accidents (165 or 24.81%) followed by District 2 with 153 accidents (23.01%). There were 138 collisions in District 1 (20.75%), 63 collisions in District 3 (9.47%) and in District 4, 146 accidents (21.96%). The busiest day of the week for accident activity for the reporting period was Thursday with 122 accidents (18.35% each) reported. The next busiest day was Tuesday with 114 accidents (17.14%) reported. Accident activity for the remaining days of the week were as follows: Sunday = 40 (6.02%); Monday = 111 (16.69%); Wednesday = 102 (15.34%); Friday = 104 (15.64%); and Saturday = 72 (10.83%).

The most frequent contributing factor was Following Too Closely, which accounted for 195 or 29.32% of the accidents. The next most recurrent contributing factor was Failure To Control accounting for 100 or 15.04% of the accidents for the reporting period. The busiest time of day for accident activity was between 5PM-6PM with 82 (12.33%) accidents.

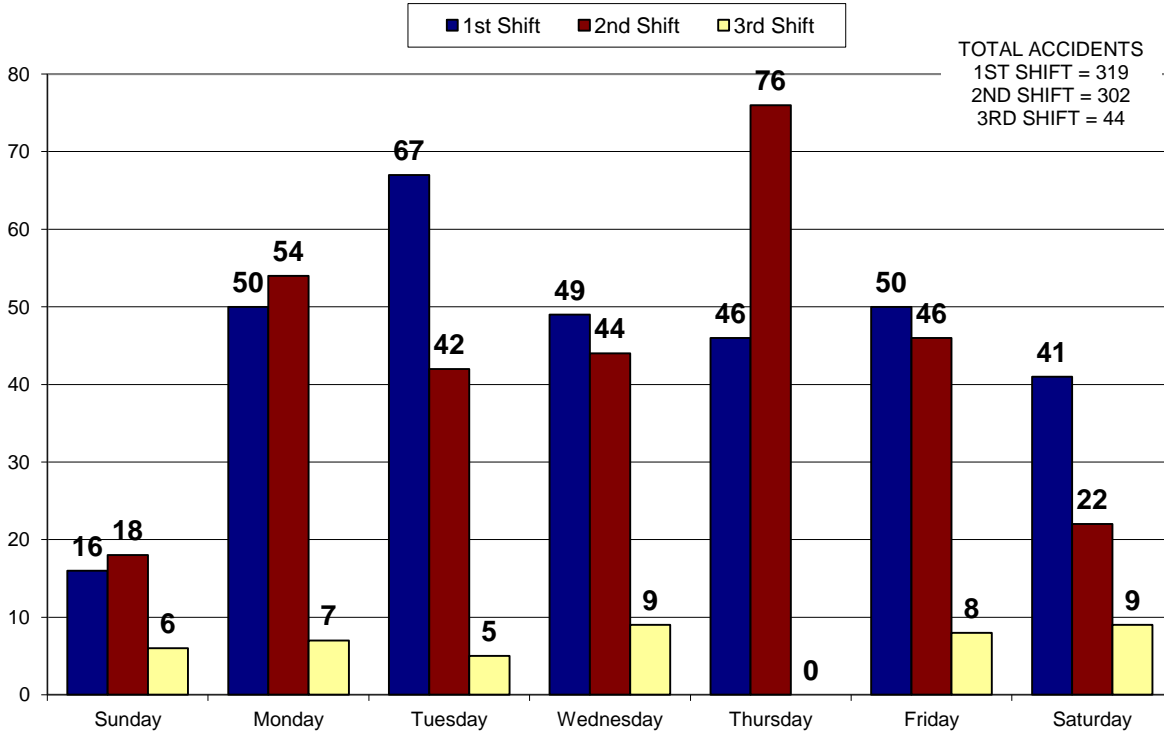

Fourteen (14) crashes were identified as having been alcohol related (2.11%). The drivers in these accidents were arrested and charged with OVI. Five hundred (500) citations were issued to at fault drivers as a result of their accidents (75.19%).

COMMUNITY EDUCATION UNIT

July – September 2011

Community Concerns:

The Dublin Division of Police continues to address concerns identified in the community survey. This survey revealed the “Top Five Policing Issues” as identified by Dublin residents. The division collects information from a variety of sources in order to garner feedback to ensure that resources continue to be allocated toward the main concerns of the community.

1. Reduce Property Crimes
2. Readiness to deal with major crimes and emergencies
3. Solving crimes
4. OVI Enforcement
5. Responding to an addressing school crime

The survey also revealed the “Top Five Most Important Police Programs” as identified by Dublin residents.

1. Crime Reduction Programs
2. Neighborhood Watch
3. Traffic Enforcement Unit
4. School Resource Officers
5. DARE

A survey of Dublin Division of Police personnel also revealed what are believed to be among the “Top 5 Community Issues” that the division should focus efforts toward addressing.

1. Reduce property crimes
2. Traffic enforcement
3. Reduce traffic crashes
4. Readiness to respond to critical incidents
5. Substance abuse issues

The Dublin Division of Police collects information about community concerns and crime from other sources including;

1. Internet sources such as; City of Dublin website, and social media.
2. City Council and other meetings attended by police personnel.
3. Direct feedback to officers on patrol and in the schools.
4. Quarterly surveying of public contacted by police on traffic stop or call for service.

Law Enforcement Concerns:

Law enforcement concerns during this period were focused on crime trends within the community. Law enforcement concerns were developed by collecting and assessing information from the community, and application of division goals and objectives.

Significant law enforcement concerns for this period:

1. Theft and burglary. These types of crimes continue to be a pervasive challenge and demand division attention and resources. Specifically, the division is focused on reducing theft from parked vehicles. The majority of these thefts occur in large parking lots and in residential areas overnight. Crime analysis has led to significant patrol efforts being focused on these “hot spot” theft environments.
2. Traffic related problems and crashes on roadways
3. Preparation for emergencies, critical incidents, and issues of significant community concern.

In May 2011 an additional survey was conducted of selected homeowner and civic association leaders to glean further information on issues of interest.

The primary concerns articulated in this survey were:

1. Traffic Concerns – These ranged from speeding, shortcutting through neighborhoods, parking complaints, need for 4-way stop sign, vehicles running through stop signs without stopping, and vehicles failing to yield to pedestrians in the crosswalk. Most of the responding associations had their own individual traffic issue.
2. Crime Concerns – These ranged from concerns about residential burglaries (break-ins), vandalism (graffiti), vandalism to vehicles and houses, and open garage thefts.
3. Disorder Concerns – These ranged from graffiti, private fireworks, and teens loitering in certain neighborhoods.

As a goal driven organization the Dublin Division of Police continues to focus efforts on 2011 goals of;

1. Reduce thefts throughout the city.
2. Reduce burglaries/breaking and entering throughout the city.
3. Reduce traffic crashes occurring in the city.
4. Enhance our readiness and demonstrate our ability to successfully resolve critical incidents, major crimes and/or issues of significant community concern.

The most common crime issue during this period continued to be theft related crimes.

2011 Total Thefts – Jan 1st, 2011 to September 30th, 2011

Goal: *Reduce thefts throughout the city (618 thefts or less).*

Type of Theft	2011	2010	% Change
Bicycles	4	15	-73.3%
From Building	57	63	-9.5%
From Coin Op Machine	1	3	-66.7%
From Motor Vehicle	123	229	-46.3%
Motor Vehicle Parts/Accessories	10	36	-72.2%
Other	67	94	-28.7%
Pickpocket	0	3	-100%
Purse Snatch	5	7	-28.6%
Shoplifting	38	54	-29.6%
Total	305	504	-39.5%

For purposes of goal measurement, 618 thefts were divided by 12 (for each month). Therefore the goal for the first nine months of 2011 was 463.5 thefts or less. Whether you compare with goal estimates (463.5) or 2010 actual (504), the police division is meeting its goal of reducing thefts through the first nine months or three-quarters of 2011 (305). Division leadership holds monthly accountability meetings and team leaders report on efforts made toward accomplishment of goals.

Recommended Actions:

The division continues the “Like It – Lock It” campaign.

The prevention and reduction of thefts and burglary continues to be a division-wide effort.

Prevention and enforcement actions are recommended to include;

1. Conducting extra patrols in high theft areas as identified by crime analysis
2. Conducting surveillance operations to detect theft in progress
3. Aggressively investigating related cases
4. Increase liaison with the business and civic leadership in Dublin to promote stronger relationships toward enhance prevention efforts.

The division continues all efforts to make the roadways safer in Dublin. The following strategies should continue;

1. Complete traffic education, prevention and targeted enforcement efforts focusing on the stated top accident corridors.

All 3 patrol shifts made significant progress at meeting crash reduction goals. Crashes were substantially down on the day and night shifts. Several locations persist as the top crash locations as illustrated below for September 2011.

Detailed analysis of crash patterns and volume aid division leadership in their effective allocation of prevention and enforcement resources.

As of October 5th, 2011 at 1030 hours, there were 67 traffic crash reports filed for the month of September 2011. The peak times for traffic crashes were between 1600 to 1900 hours and 0800 to 0900 hours. The primary contributing factors to the crashes included, but were not limited to: following too closely/ACDA, failure to yield, failure to control, and improper lane change. For the first nine months of 2011, 572 traffic crash reports were filed.

Progress made towards addressing previously identified concerns and problems:

(Also see progress on goals and objectives)

There has been positive progress made toward the reduction of theft from vehicles. Significant division resources have been used to target this crime in a variety of ways from extra patrol in high theft areas to conducting special surveillance. Timely and actionable information was provided to officers to maximize prevention and enforcement efforts.

Crime alerts were sent out to educate community members about thefts and toward greater prevention. An example of such an alert is given below.

During the first 9 months of 2011 theft has been reduced below comparable 2010 levels.

Of particular note, thefts were well below projected goals during all timeframes between January and September. All 3 patrol shifts were below or very near the goals set for reduction of thefts. Moreover, thefts in the schools were also reduced over 2010 levels.

Crime analysis and subsequent prevention strategies contributed to focused division efforts. Numerous surveillance and prevention details were conducted by division personnel using information derived from crime analysis.

Theft in schools has been reduced from 2010 levels, and School Resource Officers continue to address the problem with education and enforcement strategies. Theft in school buildings is largely due to opportunity as in the community at large. School Resource Officers have focused efforts to reduce this opportunity while increasing their presence in “hot spot” areas within school buildings. The reduction in thefts continued into this reporting period, and has most likely been impacted by officers visibility in the schools and initiatives such as the “Like It-Lock It” campaign.

Reported burglary was also below projected goals for the reporting period. As with theft prevention efforts, division personnel employed a variety of strategies, which contributed to the positive outcome. From surveillance operations to education in the schools, the efforts to prevent burglary were a constant mission for the division.

The division has sustained the CAPITAL networking group. CAPITAL (Corporate and Police Information Teamwork and Liaison) meets every other month and provides a venue for police and corporate and civic organizations to share resources and discuss crime and safety related issues.

The overall crime rate has remained low during 2011, and targeted crimes have been maintained or reduced from 2010 levels.

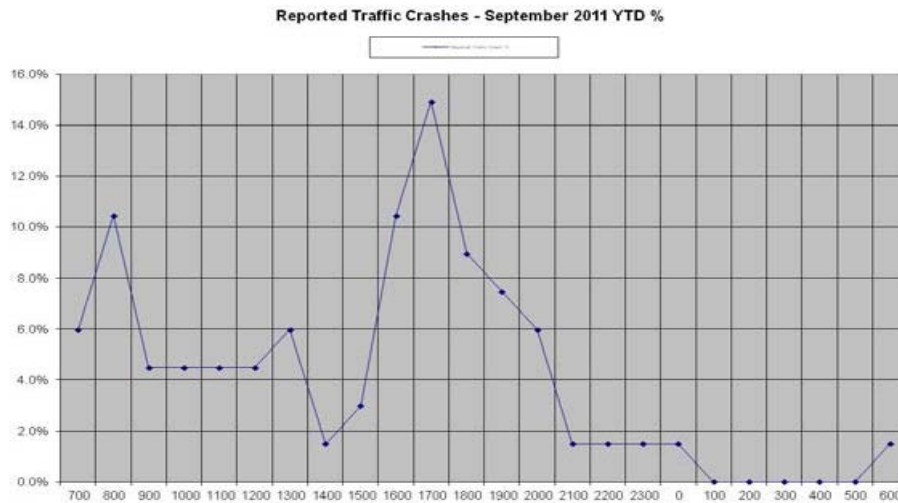

The division maintained focused efforts toward traffic safety and the reduction of crashes. Patrol shifts increased enforcement efforts and division leaders regularly discussed problem areas and possible solutions. An awareness of and focus on the top 5 crash locations was maintained in order to reduce crashes and enhance overall safety on the roadways.

The top crash locations are listed below and continue to be a focus area for enforcement by patrol officers, and other traffic safety initiatives.

Top 5 Traffic Crash Areas for September 2011*

1. U.S. Rt. 33 Corridor (Avery to SR 745) – 12 traffic crashes.
2. I-270 Corridor (Sawmill to U.S. Rt. 33) – 10 traffic crashes.
3. Avery-Muirfield (Shier-Rings to Post) – 8 traffic crashes.
4. Emerald Parkway (Post to Riverside) – 4 traffic crashes.
5. Frantz Road (U.S. Rt. 33 to Rings) – 4 traffic crashes.

Detailed analysis is conducted of traffic crash data and factored into all division efforts. Below is another example of such analysis showing times of crashes for September 2011.

Overall traffic crashes have been reduced or kept very close to 2010 levels. Traffic safety efforts have continued to contribute to safety with the completion of infrastructure enhancements such as crosswalks and additional enforcement activities.

The division conducted training events and exercises to enhance readiness for critical incidents and events of significant community concern.

1. On September 13, 2011 the division conducted an exercise to coordinate response and resources in the event of an officer involved shooting.
2. On September 20, 2011 division personnel observed and participated in a full scale exercise at Port Columbus International Airport aimed at testing response and resource capability.

Other Significant Law Enforcement Issues:

Division personnel supported several other activities during this period that required law enforcement planning and resources.

1. Large community Fourth of July parade and celebration.
2. Several road races requiring closures and traffic control.
3. Dublin Irish Festival
4. Liaison and operations with Federal law enforcement and protective services in support of VIP visits to the community.

Community Relations Activity and Crime Prevention Events:

Officers completed station tours and visits to schools and youth groups as requested.

Civic and homeowner association meetings attended by officers.

Implemented the “Meet the Chief of Police” events.

Officers participated in the annual “Safety City” program.

Officers supported the annual Kiwanis sponsored Teen Driver Rodeo.

Bicycle registration events were completed at community pools – over 150 registered.

Distributed “Anti-Theft Stickers” to local hotels

Fingerprinting services provided.

Conducted the Personal Defense Program (PDP) for corporate groups.

Neighborhood Watch Program and Civic Associations:

Attended Neighborhood Watch meetings and distributed information to local groups.

Division representatives attended civic association meetings to share crime and safety related information and to collect community concerns and recommendations.

Communication maintained with these groups toward greater sharing of information.

Operation KidPrint and Block Parent Programs:

Provided "Kid Facts Kits" directly to residents and at community events.

Personal Defense Program:

This popular program is delivered to the schools and community groups on demand when resources permit. During this period programs were delivered at Cardinal Health and Sygma Corporation.

Police Interns:

None during this period.

Operation Gunlock:

Currently inactive until a source of free gunlocks can be identified. Previously, these were provided by the Ohio Attorney General through a federally funded initiative.

D.A.R.E. and School Resource Officer Programs

These programs continue to make direct contributions to improving the safety and educational environments in which school resource officers are assigned. D.A.R.E. and other programs delivered by the division were completed as scheduled. During this period planning and preparations were made by division personnel for the start of the 2011-12 school year. Over the Summer vacation officers assigned to the Community Education Unit work on a variety of crime prevention and enforcement projects.

Quality of Service Survey:

Survey results for the June-September period have not yet been received. These results will be included in the next report.

This survey program gleans information from randomly selected recipients and gives the division useful feedback on the quality of service provided. Although not statistically significant in quantity, the surveys do provide useful information to division leadership on how officers are performing and perceptions within the community about the division. The survey is limited in scope as it only reaches people that have called police for some reason or been contacted via a traffic stop. Currently, the division is considering expanded surveying methods to more broadly and cost effectively capture valuable community feedback.
